180 DEGREES

ADULT HOUSING

IMPACT REPORT.

FY26 JULY 1, 2025 – JUNE 30, 2026

ABOUT

For more than 50 years, 180 Degrees has helped justice-involved men rebuild their lives providing stable housing, structured programming, and individualized support.

180 Degrees founder, Robbie Robinson, experienced firsthand the challenges of addiction and incarceration. After years of cycling in and out of prison due untreated addiction, Robinson changed course. He founded 180 Degrees, naming a parole officer and several incarcerated men to the Board of Directors. Their belief: people can change when given support and the opportunity to succeed.

Today more than 10,000 men have accessed housing and services through 180 Degrees. Robinson's journey from incarceration to nonprofit founder and leader stands as a powerful reminder that ordinary people can accomplish extraordinary things.

- **Completed two full years of operations at Great River Landing,** our 72-unit residential program in Minneapolis' North Loop neighborhood in partnership with Beacon Interfaith.
- **Expanding housing to end homelessness through grant funding from Greater Twin Cities United Way's Pathways Home Program,** which will spearhead a vision to expand housing for justice-involved men by redeveloping 180 Degrees property in Minneapolis' Ventura Village neighborhood.
